THE REPUBLIC COMPANY, Publishers

Introductory

OUR SECOND DIRECTORY.

In presenting herewith this second edition of the Republic Directory of Rockford and Winnebago County, the manager and compiler desires to express his appreciation of the kind co-operation of the business men and citizens generally who have aided in making it what we believe it is, the most complete and accurate directory ever published in this city.

This edition of the Republic Directory contains over **1,200** more names than were in the 1902 edition.

The total individual names in this issue, of persons over sixteen years of age in the city of Rockford, (not including the names of firms or corporations) is **19,201**. A very conservative estimate of population is obtained by multiplying individual directory names by $2\frac{1}{8}$, which ratio gives the city of Rockford at this time a population of **40,802**.

The United States census for 1900 gave the population of Rockford at 31,051, but these figures did not include the urban population outside the legal city limits, in the West End, Highland, the Southeast End, and other outlying districts that are really part of the city. It is not therefore an excessive estimate which now gives Rockford 40,802 people, considering the rapid growth of the last three years, which is a matter of common knowledge, proved by the building of many hundreds of new houses and the difficulty experienced by prospective tenants in finding empty houses.

These figures prove that Rockford is moving rapidly to a front position among Illinois cities and it requires no prophetic vision to see this city listed as the second in the state in the census of 1910.

A volume might be filled in exploiting the commercial and manufacturing advantages of Rockford, famous for the perfection of its light and water systems, streets, factories, schools, churches and homes, all the center of an expanding network of railroads, steam the electric, interstate and interurban—all these considerations are in evidence as factors in the city's wonderful growth the last three years.

The Republic Directory has become a Rockford institution. The first edition was featured with the latest directory ideas, which are retained in this work. In addition thereto we this year give a numerical telephone directory, and a numerical list of rural routes running out of Rockford.

The Republic believes that nothing is too good for Rockford and has spared no expense or labor in perfecting this work.

W. H. McCOY,
Manager and Compiler.

I Am a Real Estate, Loan and Insurance Specialist

I know all about these things thoroughly, because I've had about thirteen years of practical, successful experience in the business.

I am the only man in this particular field who has devised and maintains a system of keeping a record of every transaction in such a manner that every detail of my client's business, big or little, is

always at my fingers' ends.

It's the only positively safe and satisfactory way for both of us—my client and me.

I buy, sell and rent good property of every sort anywhere.

I loan money at low interest to anybody who can give the right security.

And I write fire, lightning and tornado insurance in the best companies on earth.

It will pay you to see me whenever you are interested in any of the things that I do or can do.

A Word with the Workingman

It's a whole lot better to be your
own landlord, than it is to be
somebody's tenant—

And there's considerable more money in
it for you.

If you want to build a home of your own
I will help you do it.

And I'll save you money besides.

Might as well make a start sometime and
now is a good time to do it.

I've a lot of opportunities for the man
who means business.

It won't cost you a penny to talk it over
with me—

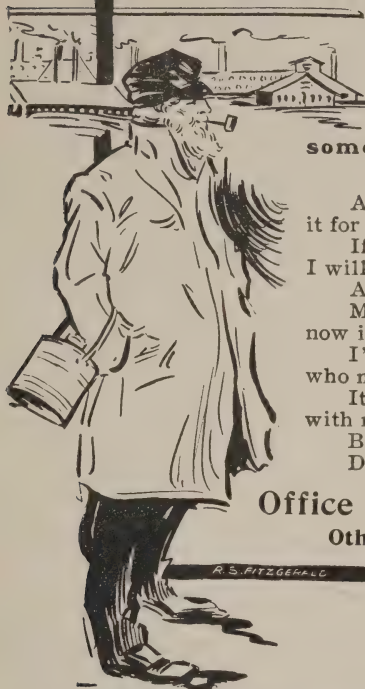

But don't wait too long.

Do it now—today.

Office Open Saturday Evening.
